

A handwritten signature in black ink that reads "Lynda Howitt". The script is fluid and cursive, with a long, sweeping tail on the letter 't'.

SEDUCED BY THE SEA EXHIBITION

“Seduced by the Sea” is a joint exhibition born out of the artists’ connection with the sea, and a need to explore its beauty.

These stunning abstract paintings and photographs evoke the viewers own memories of times spent on the waters edge. These new works by artist Lynda Howitt and photographer Christian Mushenko seduce the viewer with dream-like light, a graceful velvet feel, and sensual colours. The exhibition at the Bathers Pavilion Balmoral runs from August 4th through early October.

Lynda grew up next to the ocean, spending any spare time in or on the water. She now lives in Balmoral and the ocean is a huge influence on her creativity.

As a successful artist and designer she draws on her passion for the sea for inspiration. “The ocean holds an experience, a moment, an emotion for us all” says Lynda. “We are all connected by the ocean”.

“From my design experience I have learnt that artwork is strongest when viewers derive their own emotions from what they see – they can’t help but be seduced”, she says.

Her large canvases pull the viewer in with their delicate complexity. The romance of the sea is evident in these works, which will have a wide appeal. Prepare to be seduced.

Ten percent of proceeds aids the WWF’s work on protecting whales and dolphins in our seas.
