

Exhibiting Soul

Internationally acclaimed photographer Christian Mushenko and renowned artist Lynda Howitt have opened their joint exhibition, *Soul*, at the Bathers' Pavilion Gallery in Balmoral, Sydney. *Soul* is a collection of stunning artworks which they say "connect on a deeper level and convey emotions". The large-format photographs and paintings on display are abstract works of texture and colour, based on the sea, sky and symbolism.

Through his photographs Mushenko aims to show depth and richness. According to Mushenko, his current project *Soul* has been a creative outlet and personal passion for both Howitt and himself. "Our artworks are very personal and will no doubt resonate with people's own experience," said Mushenko. "They are a result of finding a way to express deeply felt emotions through print and canvas."

"Soul" will be on display until April 30, 2007.
